*Youth Transmitter - Meet the Locals*

***EVS INFOPACK***

## Summary:

The year of 2018 began with the presidency of Bulgaria of the EU. Even though the average Bulgarian citizen is becoming more "European", there are still people, including young people, especially in the more remote areas, for which Europe and the EU are largely imaginary and abstract concepts. With this project, we want to bring the two concepts closer to the people who live in villages and small towns through elementary activities and events to provoke their attention. In particular, games and outdoor activities with young people using non-formal education methods and film / movie evenings / outdoors / or in the local community center /for which we have a preliminary screening permission/. Already our organization has carried out a similar voluntary project in 2013 - Youth Traveling Cinema.

On the other hand, as a youth web media we would like to show a piece from the lives of these people, no matter the age to Europe /volunteers, young people, users of our web site/. For this purpose, we will create a separate section "Meet the Locals" on the site /media [www.e-revolutionradio.com](http://www.e-revolutionradio.com), where we will publish individual video and audio materials that will be subtitled in English. In this way, we will also popularize what we have achieved in previous projects related to Radio E-revolution, and we will also promote our Youtube channel, which is currently being developed. As the project is of a similar nature and requires it, at the beginning, volunteers will be trained to work with software for editing and installing video and audio materials by a professional in the field.

The project has intercultural and ethnographic character. In this connection, a weekly radio broadcast will be launched on Radio E-revolution, which will deal with the cultural differences of the people of Europe, their folklore, ethnographic traits. The aim, besides diversifying the air of our radio, is that young volunteers will have a stronger touch with the diversity of Europe's population and will be more open and tolerant in the future. Learn about others and develop a sense of belonging - Different but together. This moment of the project will be mainly affected during the colder months – winter and the difficulties associated with travel.

One of the activities in which the participants will be involved with the launching of their voluntary service is helping to organize and conduct the already popular and with national dimension Youth Summer Music Festival – Summer Story, which takes place in the mountain near Sliven: <https://e-revolutionradio.com/liatnasluchka/>

The project involves three participants from Program Countries and will be developed between 01/07/2018 and 30/06/2019.

The last video is made by EVS volunteers in Bulgaria. One of them was in our organization. It is important – Bulgaria is a bit different than the other EU countries – both in a positive and negative way. Not to have some dissappointments and different expectations.

The volunteers can do really good work here

and have a lot of fun, but if they focus on the bad sides might be not satisfied.
