Association of Ruse in help of society and young people

- Association of Ruse in help of society and young people/RAPO is an organization that seeks to help young people with fewer opportunities and Adults in their development by using non-formal educational methods and tools. The organization was established in 2014 and has realized local and international projects in the field of youth, sport and education. Mostly the organization is implementing different training programmes and exchange programs in socially significant topics such as discrimination, human rights, good and healthy lifestyle, entrepreneurship. RAPO has been an active organization in European programmes such as Youth in Action, Erasmus+, as well as other international and European programmes.

Time zone - GMT+2

Capital - Sofia

International dialing code - 00359

Why we want to realize DIGITALL

We want to teach 18 youth workers to understand the concept of the Human-Centred Design approach for problem-solving and design a learning experience in order to create solutions for delivering innovative NFL activities.

We want to provide 18 participants with an expert framework for the Global Sustainable Goals, specifically SDG 4 (Quality Education) and new approaches and educational policies created by European Commission in order to fight with the Global disaster called COVID 19 and comply with the current situation. (Research data, numbers, agendas etc.).

We want to provide training to 18 youth workers that will empower and equip them with knowledge about the positive and

We want to boost the creative use of IT platforms such (Slack, Mural, Zoom, handouts, Google platform, Microsoft events platform) and how to introduce them in their work To provide 18 youth workers with guidance on how to use the Human-Centred Design approach in their work with young people with fewer opportunities.

We want to strengthen further partnership in the field of innovative educational approaches between the participating organisations. To design project toolkit consisting of new methodological approaches and workshops by using Human-Centred Design approach for problem-solving by 18 youth workers.

With the support of the
Erasmus+ Programme
of the European Union

Participants (22+ years)
